### **Opportunities & Industry out Look:**

The real estate sector that suffered much pain in the past two years is moving towards a more rational regime where developers, having learnt from their mistakes, now focus on project execution. 2016 is expected to gradually move towards better. The year will also see the sector moving from an investor-driven to an end-user driven cycle. Land prices, which declined to some extent in 2015, may see further correction as customers are still delaying land/plot buying decisions. With the government easing foreign direct investment (FDI) norms in the construction sector, more offshore investors are likely to invest in real estate. This will also enable smaller-sized investments. More exclusive partnership platform transactions between Indian developers and investors are also expected to happen, giving fund managers more control over investments and decision making. The relaxation of FDI norms in the midst of a prolonged slowdown in the sector is expected to bring back some cheer in the real estate sector. The outlook of sector is expected to further shine in 2016-17

**MANAGEMENT DISCUSSION AND ANALYSIS**

This section shall include discussion on the following matters within the limits set by the listed entity's competitive position:

## (a) Industry structure and developments:

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Mr. Nitin Gadkari, Minister of Road Transport and Highways, and Shipping, has announced the government's target of Rs 25 trillion (US\$ 376.53 billion) investment in infrastructure over a period of three years, which will include Rs 8 trillion (US\$ 120.49 billion) for developing 27 industrial clusters and an additional Rs 5 trillion (US\$ 75.30 billion) for road, railway and port connectivity projects.

## (b) Opportunities and Threats.

The Indian government has also taken a number of steps to improve business climate. Additional structural reforms to address the legacy impediments to growth, including measures to speed up infrastructure investment, could help to sustain the strong pace of growth in the coming years. The Government announced a record budgetary allocation of H 2.21 lakh crore for infrastructure sector. The year also witnessed execution of new plans, with the government identifying first 20 smart cities under its 'Smart Cities Mission. The Andhra Pradesh government has also taken a number of steps to improve Infrastructure sector in Andhra Pradesh. The major threat for infrastructure sector in Andhra Pradesh was global competition due to the government of Andhra Pradesh allocate their projects through global tenders with intention to develop world class infrastructure facilities in new Capital Amaravati, hence the Andhra Pradesh Government entered various Memorandum of Understandings with various countries like China, Japan, Singapore etc. It is very difficult situation to mediumsize infra companies to compete with global joints.

## (c) Segment-wise or product-wise performance.

Real Estate: During the year real estate business faced critical challenges in Andhra Pradesh due to fluctuations in prices of all types of lands. The real estate market in Andhra Pradesh based and depends upon announcement new government projects.

## (d) Outlook:

A number of initiatives undertaken in 2015 that have the potential to significantly impact and influence activities and investments in the infra sector in 2015-16, include National Investment and Infrastructure Fund. The NIIF, proposed in the Union Budget 2016, demonstrates the Central Government's objective of creatively using off-budget resource raising measures. The Cabinet has cleared an initial equity corpus of 20,000 crore which can be leveraged extensively. It is likely to be set up as a 'fund of funds' with three buckets—stressed projects, renewables and general investments—with the Central Government holding a 49% stake. The Central Government announces three smart cities to Andhra Pradesh and also intends to announce more projects to Andhra Pradesh, in future these projects have impact on infra business in Andhra Pradesh.

## (e) Risks and concerns.

The infrastructure and real estate business in state of Andhra Pradesh faced turbulent situation during the year. The major risk for infrastructure and real estate business in Andhra Pradesh is government policies on real-estate business i.e policies and regulations on new real estate layouts or ventures, existing un authorised layouts, announcement of agriculture zones near to new capital Amaravati and continuity of free sand mining scheme. The state government of Andhra Pradesh more concentrated foreign companies and entered various MOU's with various countries in development of Infrastructure projects. Land grabbing is major risk for real estate industry.

## (f) Internal control systems and their adequacy:

The Company has well-established processes and defined the roles and responsibilities for people at various levels. The control mechanism also involves well documented policies, authorization guidelines commensurate with the level of responsibility specific to the respective businesses. Adherence to these processes is ensured through frequent internal audits. The internal audits conducted are reviewed

by the Audit Committee and requisite guidelines and procedures augment the internal controls. The internal control system is designed to ensure that financial and other records are reliable for preparing financial statements and other information which ensures that all transactions are properly reported and classified in the financial records. However, the Company had since given its farm on long term lease and did not carry any other business operations during the year

- (b) Discussion on financial performance with respect to operational performance:
- (c) Material developments in Human Resources / Industrial Relations front, Including number of people employed:

During the year there was no Material developments in Human Resources / Industrial Relations front, including number of people employed in your company. The management periodically reviews the risk management framework to identify the major business risks as applicable to the Company and works out their mitigation strategy

## 2. Disclosure of Accounting Treatment:

Where in the preparation of financial statements, during the year there was no different treatment from that prescribed in an Accounting Standard has been followed, the fact shall be disclosed in the financial statements.

## **ANNEXURE B**

### **ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT**

The annexure referred to in paragraph 2(f) under the heading 'Report on Other Legal & Regulatory Requirement' of our Independent Auditors' Report of even date to the Statutory Auditors of Crane Infrastructure Limited ("the Company"), on the Financial Statements for the year ended 31<sup>st</sup> March 2016, we report that:

1) We have audited the internal financial controls over financial reporting of Crane Infrastructure Limited ("the Company") as of March 31, 2016 in conjunction with our audit of financial Statements of the company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

2) The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

3) Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting

based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4) Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5) We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

6) A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company;

and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

7) Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion :**

In our opinion to the best of our information and according to the explanations given to us, the Company and its subsidiary companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company and its subsidiary companies incorporated in India considering the essential components of internal control stated in the Guidance Note.
